Children's Medical Fund Logo Reveal at Cohen Children's Medical Center

On November 23, 2015 an incredible milestone was reached on behalf of CMF and our donors. We are so proud to announce that the CMF Logo has been placed on the outside of the children's hospital. With over \$85 million dollars given in a time span of 47 years, this recognition is dedicated to all our loyal donors past and present.

Dr. Schleien, Chair of Pediatrics at CCMC, spoke about the importance of what CMF does for the children's hospital. He stated that there are many programs and pieces of lifesaving equipment that CMF has provided over the years. If not for CMF many of these programs would not be in existence.

2015 has been a banner year for CMF and we are moving forward with our plans to fund the CMF Center for Pediatric Diagnostic Studies in 2016.

Thank you to all who attended!
