

Lindsay Tanney Hosts Patient Party at Cohen Children's Medical Center

Lindsay Tanney is a very special young lady. Wanting to do something that would directly impact the daily lives of the young patients in the hospital, Lindsay spent an afternoon making the kids feel special. Along with her mom and dad, Lindsay provided much needed entertainment and fun for all. Lindsay gave the kids pillow cases that they could decorate themselves and take back to their room as a reminder of their special day. It was a fun distraction and the creativity of each individual kid came shining through! After the fun all enjoyed ice cream sundaes. It was a perfect way for her to show these children how special they are. Great job Lindsay! You should be very proud of yourself!
